

Lexington Postal Credit Union's

VISA[®] Credit Card is Apple Pay Ready

If you need help adding cards to Apple Pay, try the steps below or visit <https://support.apple.com/apple-pay>

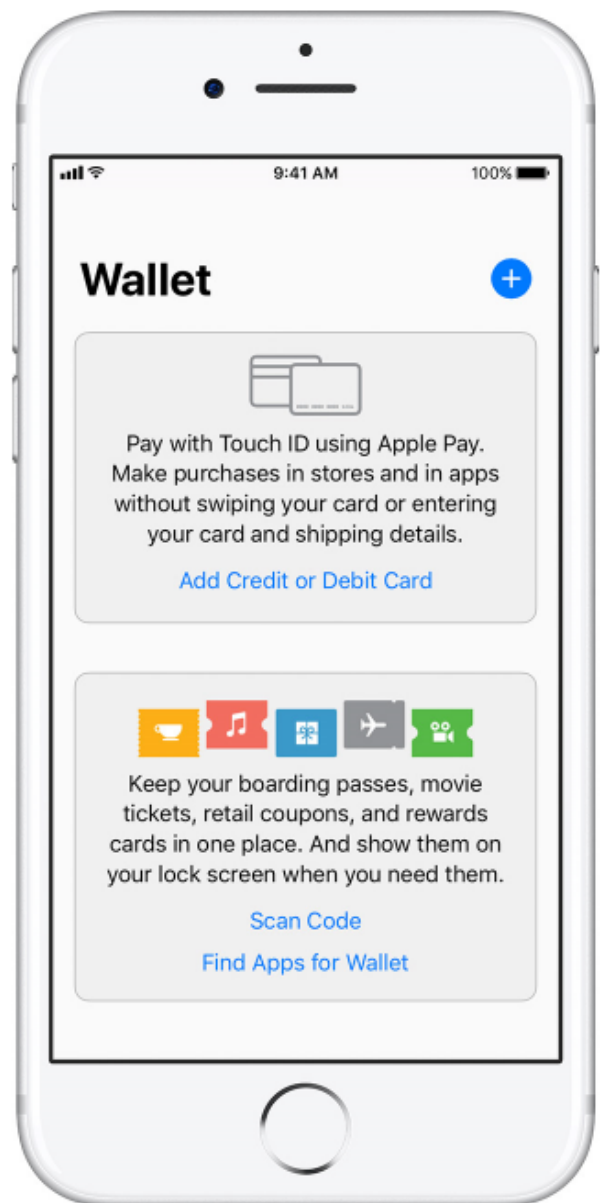

Using Apple Pay in Stores using your iPhone

Step 1

Add a card on your iPhone

1. Go to Wallet and tap Add Credit or Debit Card.⁴
2. Follow the steps to add a new card. If you're asked to add the card that you use with iTunes, just enter its security code.
3. Tap Next. Your bank or card issuer will verify your information and decide if you can use your card with Apple Pay. If your bank or issuer needs more information to verify your card, they'll ask you for it. When you have the information, go back to Wallet and tap your card.
4. After your bank or issuer verifies your card, tap Next. [Then start using Apple Pay.](#)

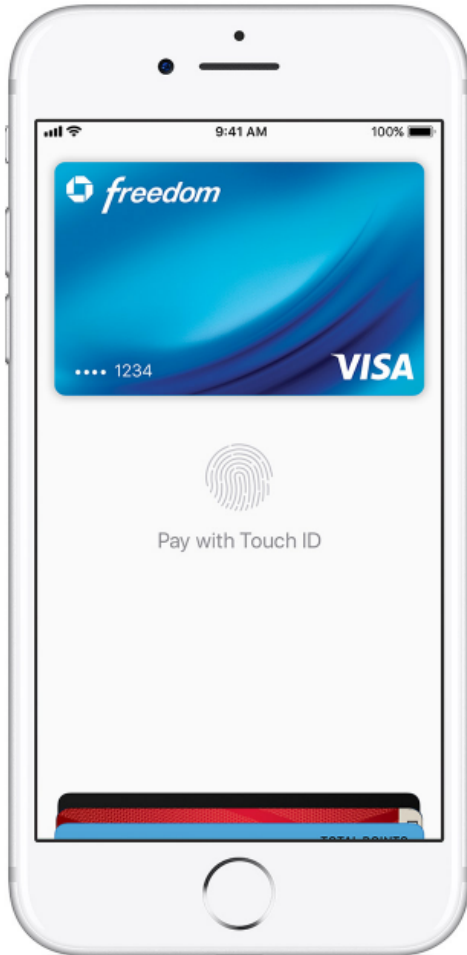

(Note: LPCU's VISA Credit Card is supported but not our VISA Debit Card. Samsung Pay and Android Pay are not supported at this time.)

Step 2

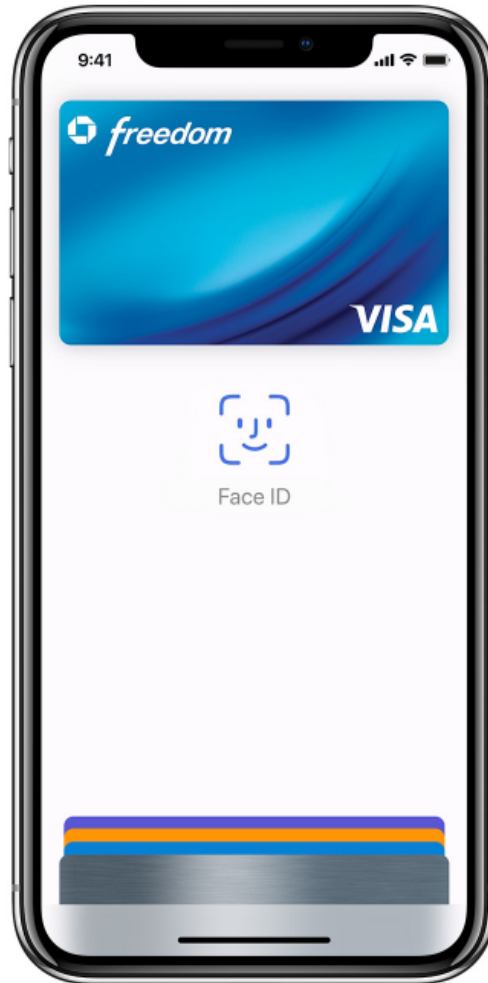

Pay in stores

With your iPhone or Apple Watch, you can use Apple Pay wherever you see one of these symbols.²

Pay with iPhone 8 or earlier

To use your default card, rest your finger on Touch ID and hold the top of your iPhone within a few centimeters of the contactless reader until you see Done and a checkmark on the display.

Pay with iPhone X

1. To use your default card, double-click the side button, then glance at iPhone X to authenticate with Face ID or enter your passcode.
2. Hold the top of iPhone X within a few centimeters of the contactless reader until you see Done and a checkmark on the display.

If you need to choose Credit or Debit on the terminal, choose Credit.

Enjoy the easier, safer, more private way of shopping with Apple Pay and your LPCU VISA Credit Card
